

NEW - Avery Dennison™ High-Temperature Custom-Made Stanyl Tie

Avery Dennison High-Temperature Stanyl Ties bundle electrical wires safely and securely next to motors, heating elements or any area where higher than normal temperatures are encountered. The custom-made 4/6 nylon ties can be fabricated in various lengths, sizes and designs.

Key features and benefits

- Resist temperatures as high as 300 F.
- UL approved.
- Custom-made to meet specific user requirements.
- Compatible with Avery Dennison's manual or pneumatic-powered cable tie installation tool.

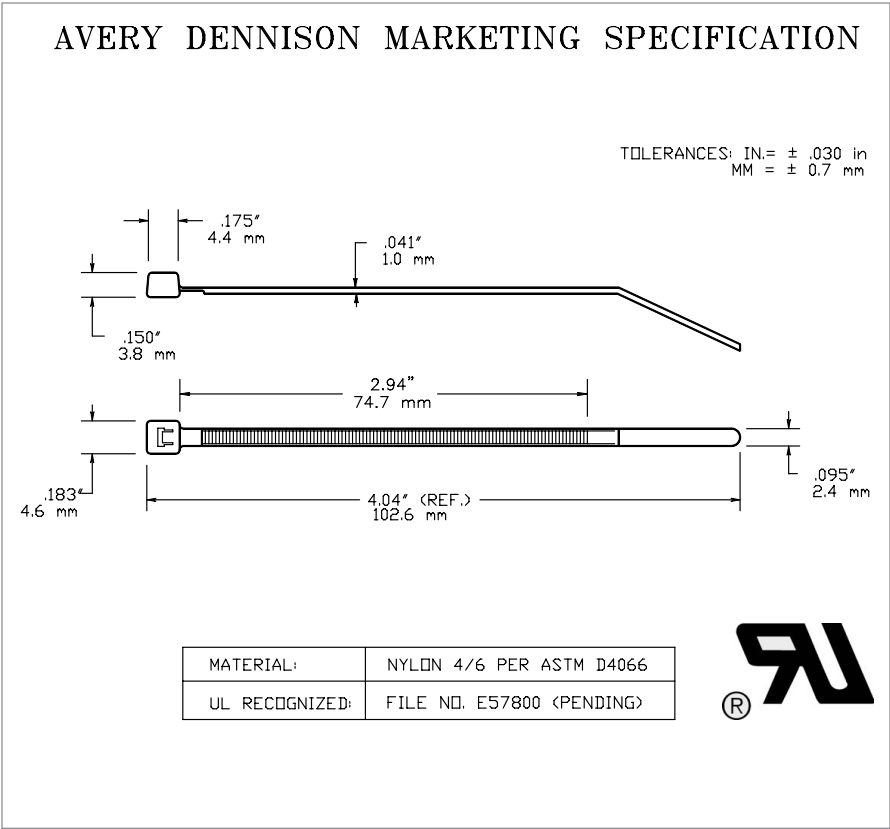

Primary Applications

- Refrigerators, stoves and other kitchen appliances.
- Snowmobiles, snow blowers and personal watercraft.
- Automotive door panels and under-the-hood components.
- Material handling equipment such as forklifts and cranes.
- Inside electrical panels, where high temps are generated.
- Lawn equipment, including mowers and string trimmers.
